Expect more relief in GST, hints PM

Also, all restaurants should pay a 12% tax instead of having to follow two sets of rates (currently, air-conditioned restaurants pay GST at 18%, while the levy is 12% for non-air-conditioned ones). However, the uniform 12% rate will come with the removal of the input tax credit facility. Also, the benign composition scheme that allows the businesses to pay tax as small percentage of turnover instead of the item-wise GST rates may be made available to units with turnover of up to ₹1.5 crore as against ₹1 crore now. The composition scheme may be made accessible to units with intra-state sales as well.

Modi said the country's rank in ease of doing business has climbed 42 places in the last three years, including the unprecedented 30-notch jump in the latest ranking to 100th of 190 nations. He said the GST not just integrated the nation of 1.2 billion into one market with one tax rate, but also offered a stable and transparent tax regime. The Prime Minister said while the jump is impressive, he does not want to sleep over it with contentment, but intends to push everyone concerned to achieve even greater heights. "There are many other reforms that have already happened, but need gestation and stabilisation time before they are taken into account by the World Bank. There are a few other reforms where our team and the World Bank team need to find common ground," Modi said.

Takes dig at critics

He added, "I want to tell them that had they done the

kind of work we have, this achievement would have come during their tenure itself." The Prime Minister said, incidentally, the World Bank started ranking economies on ease of doing business since 2004, and everybody knows who was ruling this country between 2004 and 2014 when India was ranked dismally. By contrast, in the last three years, India's ranking has gone up 42 notches, he stressed.

'India to be high middle income economy by 2047'
